

IMPORTANT ANNOUNCEMENT

**Northeast Montessori Institute will discontinue its
Infant and Toddler Level Credential Program
following the 2021 – 2022 training cycle.**

While Northeast Montessori Institute is very excited to be enrolling its Infant and Toddler AMS-affiliated credential program for the coming 2021-2022 course cycle, we have decided that we will be discontinuing this training level following the conclusion of the 2021-22 course cycle.

The Infant and Toddler level of training has historically attracted small numbers of participants. This, together with other factors due to the current pandemic, have led us to this difficult decision, as we recognize the service this program has provided the Montessori community.

This decision does not affect our Early Childhood credential program which has continuously been offered since 1984.

**There's still time to enroll in the
NMI Infant and Toddler Credential Program
for the 2021 – 2022 training cycle!**

The summer phase of the academic training will be done online via live Zoom sessions. The academic phase will continue during the school year with both a fall and a spring weekend seminar.

Details as to schedules and costs, along with enrollment information, can be found on the Northeast Montessori Institute website at

www.nemontessori.org.

NMI is grateful to its many IT instructors, adult learners, field consultants and host schools who have and continue to make our work possible!
